

## CENSORSHIP IS KILLED

Vote 220 to 167 Against the Provision of the Administration

PEOPLE ARE THE SOVEREIGNS

Postmaster-General Burleson, in Debate, Accused of Snooping

Washington, May 5.—The House by a vote of 220 to 167 yesterday struck out the censorship section of the espionage bill.

Administration leaders informed Postmaster General Burleson when he came to the capitol yesterday to urge passage of the bill, that defeat was certain for the newspaper censorship section.

Representative Graham of Pennsylvania, whose motion to strike out the whole section is pending, attacked it again yesterday.

"Let us take the people into our confidence," he said. "They are the sovereigns. This is their war and they have to make the sacrifice."

Representative Kahn yesterday offered his amendment to create a board of censors to be composed of trained newspaper men and representatives of the state, war and navy departments.

In closing argument for the censorship section, Chairman Webb of the judiciary committee declared he had just received word from President Wilson that the section would be necessary to the defense and success of the country.

"Was that message brought down by Postmaster General Burleson, who is always snooping around here?" demanded Representative Norton of North Dakota.

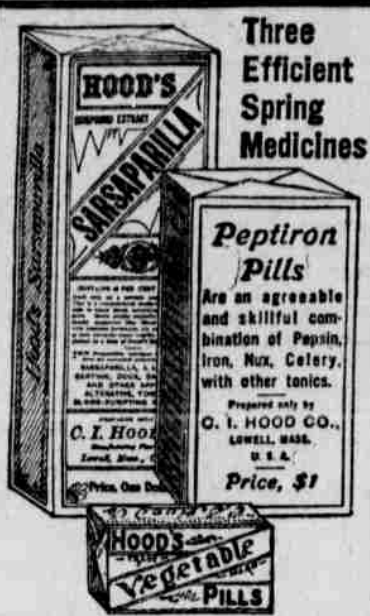

Mr. Webb did not reply to the question but launched into an attack on newspapers which, he said, were not standing by the president.

## DENIES PLAN TO DARKEN ATLANTIC COAST TOWNS

War Department Allays Fears of Atlantic City and Other Seaside Resorts.

Washington, May 5.—The war department reiterated yesterday previous statements that no plan was under contemplation for the darkening at night of exposed towns along the Atlantic coast.

Many inquiries have been received arising from reports that the lights of Atlantic City and other coast resorts would be extinguished at night. The department's statement yesterday pointed out that no such step could be taken unless martial law had been established and added that no project for a declaration of martial law was being considered.

NOTE.—If your blood needs purifying.—If you have no appetite, have that spring tired feeling.—You need Hood's Sarsaparilla. If you are anemic, pale and nervous, you need Pepton Pills. If constipated, liver sluggish, you need Hood's Vegetable Pills. If your blood is impure, if you are anemic and nervous, constipated besides—you need all three medicines. Get them today.

## TELEGRAMS STRENGTHEN PLOT CASE

They Are Put in As Evidence Against Rintelen and Alleged Confederates.

New York, May 5.—A mass of telegrams, by which the government plans to prove a plot to tie up the entire munition traffic in this country, was placed in evidence yesterday at the conspiracy of Captain Franz Rintelen of the German navy; David Lamar, former Representative Frank Buchanan and H. Robert Fowler, and four others.

The telegrams were exchanged among the defendants, and for the most part addressed to each other at the various hotels at Chicago, Indianapolis, New York, Washington and Atlantic City, N. J. The text of the messages had to do mainly with hurried appointments or the workings of labor's national peace council, which, it is alleged, was financed by German money, and sought to foment strikes at munition factories.

Most of the telegrams bore the real names and addresses of the defendants, but in some appeared the name "E. Ruckey," which, it has been testified, was an alias of Lamar's.

## NEW LOAN TO BRITAIN

It Will Probably Be Larger Than the First Credit of \$200,000,000.

Washington, May 5.—Another loan to Great Britain within the next week was forecast by officials here yesterday. The first credit of \$200,000,000 is being spent at the rate of \$8,000,000 a day on purchases here, and it is desired to complete the second loan before the British commission leaves Washington and before the first is entirely used up. It probably will be larger than the first credit.

Plans for creating an allied central purchasing agency in Washington progressed yesterday in conference with American officials, resulting in further clarification of the allies' needs. It is hoped that strong American official bodies may be formed to make the co-operative buying successful.

Sir Eric Drummond and C. E. J. Dorman, secretary and assistant secretary, respectively, to Foreign Minister Balfour, went to Baltimore yesterday to pay the official respects of the British mission to Cardinal Gibbons.

Mr. Balfour had yesterday word from Vice-President Marshall that the Senate would be happy to receive him formally next Tuesday. It was originally planned for Mr. Balfour to be received to-day by both houses and to go to the supreme court afterwards. No change is understood to have been made in plans for his reception by the House.

Amoskeag Manufacturing Company Announces New Wage Advance.

Manchester, N. H., May 5.—The Amoskeag Manufacturing company and the Stark mills, employing upwards of 20,000 textile operatives here, yesterday announced a general increase of wages effective May 14.

The amount is not stated, but new schedules are now being prepared. This is the fourth increase in a year.

## DEMANDS FOR "GERMAN PEACE"

Appeal Is Published in the German Newspapers

TERRITORIAL EXTENSION

With War Indemnities Are the Conditions Outlined in the Petitions

Amsterdam, May 5.—An appeal for a "German peace"—a peace accompanied by war indemnity to be paid by Germany's enemies, and with territorial extension—is published in German newspapers, according to an Amsterdam dispatch, as coming from Germany's agricultural, economic and industrial interests. There is still a strong party which insists on peace on such terms only as shall carry out Germany's real desires in bringing about the world war—including territorial expansion and world commerce domination. Still the masses are seething in dissatisfaction, other dispatches say, and one cablegram bears the news that there was rioting in Berlin last week, despite suppression of all news to that effect, and that soldiers turned machine guns on the mob.

Apparently Von Bethmann-Hollweg, the German chancellor, will make his "peace" speech in the Reichstag soon. Then after interpellations the Reichstag will adjourn and the government will be in charge, unhampered, of war, or peace, measures. German and Austrian newspapers are commenting on the situation as to America, but it remains for Dr. Maximilian, boldest of them all, to come out in his paper, with statements that must shake German militarism to its roots. He prizes England's publicity course, contrasting it with German suppression of news. Then he points out President Wilson's war declaration, which he says is "like none since the Crusades." The government is not likely to let his utterances go unnoticed.

## SECOND LOAN TO ENGLAND.

First Credit Being Sent at the Rate of \$8,000,000 a Day.

Washington, May 5.—Another loan to Great Britain within the next week was forecast by officials here yesterday. The first credit of \$200,000,000 is being spent at the rate of \$8,000,000 a day on purchases here, and it is desired to complete the second loan before the British commission leaves Washington and before the first is entirely used up. ## General Sporting Notes.

The Redbirds are the most prolific producers of three-base hits in the National league. This is because there are men like Rousch, Groh and Chase on the club, who know how to get the most out of a hit.

Rube Schauer, the former Giant, is still with the Athletics, but has not done any pitching as yet. It is stated that Schauer is not in the best of health.

Hal Chase is not attracting a great deal of attention this season but is in the game just the same. Prince is hitting the ball for .305.

Robertson of the Giants is not hitting the ball with his usual vigor this spring. In the game the other day between Brooklyn and New York, Robertson could have won his game in the 10th or 14th inning with a safe drive.

If the Giants do not improve upon their batting, they will have to depend upon airtight pitching.

Owner Comiskey of the Chicago White Sox is turning over 10 per cent. of his net receipts to the Red Cross fund.

The Yankees have beaten Walter Johnson twice in nine-inning games this season. All the star pitchers are having a good deal of trouble in getting on the right end of contests.

The Robins have been on the down grade during the first few weeks of the season, but they have commenced in earnest now.

Young Hickman, the extra outfielder on the Brooklyn National league roster, is said to be the fastest runner in the national pastime. He gets under some hard hit drives in good shape and has saved a few games at this early date in the season. The other day in the game against New York he sprinted after a drive by Burns which was labeled for a home run and made a grandstand catch which probably saved the game for Brooklyn.

Battling Levinsky, known to the boxing world as one of the best of his weight, has decided to embark in the health farming world.

## CALLED ILLEGAL.

Allegation Against Appointment of Royal Arcanum Receiver.

Boston, May 5.—The United States circuit of appeals yesterday set May 16 as a date for a hearing on a petition brought by the supreme council of the Royal Arcanum, a fraternal insurance order, to test the validity of the appointment of a receiver by the district court. Former Attorney General Thomas J. Boynton was made receiver last month on petition of the holder of a death benefit certificate, who alleged that the reserve fund had been improperly administered. The council claimed that the appointment was without notice and was therefore illegal.

## CHICAGO CHEERS ENVOYS.

Major General Barry and Mayor Thompson Welcome the Visitors.

Chicago, May 5.—The French envoys arrived here at noon yesterday. Marshal Joffre and former Premier Viviani were greeted with cheers as they stepped from the train. Major General Barry, commander of the central department, U. S. A., and staff and Mayor Thompson welcomed the visitors to Chicago.

Despite the precautions to keep secret the station at which the visitors would arrive, a crowd was waiting outside the train shed, attracted there by the police detail and the detachment of the Illinois National Guard, the official escort of the French envoys. Much enthusiasm was displayed by the watchers. The visitors entered automobiles and were driven to the Chicago club, where a luncheon had been arranged by the executive committee. Crowds lined the streets as the procession traversed the downtown district, and a roar of cheers greeted the Frenchmen. Marshal Joffre's salutes to the crowd brought repeated bursts of cheers.

Long before the hour set for the arrival of the envoys downtown Chicago rang with the strains of the "Marseillaise." The first day of the stay of the visitors was devoted to private entertainment and receptions tendered by persons prominent in the city's business and social life. The envoys to-day will be the guests of the city and the public will be given a chance to see them in parade through the downtown district and this afternoon at a mass meeting at the amphitheatre at the stockyards. While the representatives of the French republic were being received by their hosts patriotic exercises, in which more than 300,000 children participated, were held at public schools.

The envoys were met at the state line by a state delegation headed by Lieutenant Governor Oglesby, who extended a welcome to Illinois, and by a deputation from Chicago.

## TRY TO BLOCK BLISTER RUST.

Movement of White Pines and Black Currant Plants Prohibited.

Washington, May 5.—Movement of white pines and black currant plants from the New England states to points outside of New England is prohibited henceforth by an amendment made by Secretary of Agriculture Houston to the white pine blister rust quarantine promulgated April 21. The secretary said this action was necessitated by the considerable movement now under way of possible infected white pines, and, to a less extent, black currants from New England to states lying west and south. Both of these plants carry the blister rust disease.

## Villa Threatens.

El Paso, Tex., May 5.—Francisco Villa with his main command is believed by American secret agents to be within 50 miles of the American border, southeast of Juarez.

## Raincoats Are Still in Style

If you think you will have no use for a raincoat this summer, just cast your mind back for the last month.

The rains are not over—and just because they may come less frequently is no reason why you will be any better prepared for them when they do come.

Buy your raincoat now and you will not need to care when it rains—or how often.

## AMUSEMENT NOTES.

Bird Comedians to Be Shown by Lyman H. Howe Monday Night.

The wonderful film to be shown by Lyman H. Howe at the opera house on Monday night of Sir Douglas Mawson's expedition into the depths of Antarctica furnishes more thrills and genuine laughs than any of the manufactured "thrillers" could possibly hope to imitate. Comedy in rich measure is provided by the birds and animals of which the penguins are the "head liners." As they dive from the rocks they are funny. Then when they try to feed their clamorous young or attempt to cover six eggs, placed under them by mischievous humanity, instead of the normal one, they are funnier. But when they form in cadet-like lines to salute a ponderous sea lion they are funniest. The reproduction in its entirety has more real entertainment in it than a hundred photoplays. These phases of the film combined with breathless adventure and daring exploits make it appeal irresistibly to all ages beyond anything ever shown in motion photography. No conception or comprehension of the unexplored uninhabited sections of the earth's surface is possible without seeing this film.—adv.

## Gives Joffre Ham to Take to Wife.

Washington, May 5.—Madame Joffre, wife of the marshal of France, is going to get a fine sugar-cured Virginia ham, a gift from Mrs. Woodrow Wilson, when the marshal returns to Paris. During one of the marshal's calls at the White House, Mrs. Wilson learned that Madame Joffre was very fond of American ham, which is very scarce there. Mrs. Wilson sent to Virginia and procured an extraordinary fine ham, and sent it to Marshal Joffre, asking him to take it back to Madame Joffre with her compliments. The ham, carefully packed, will go with the marshal's personal effects when he leaves the United States.

## Truth

As its advertisement—so the car. An honest announcement goes with an honest car.

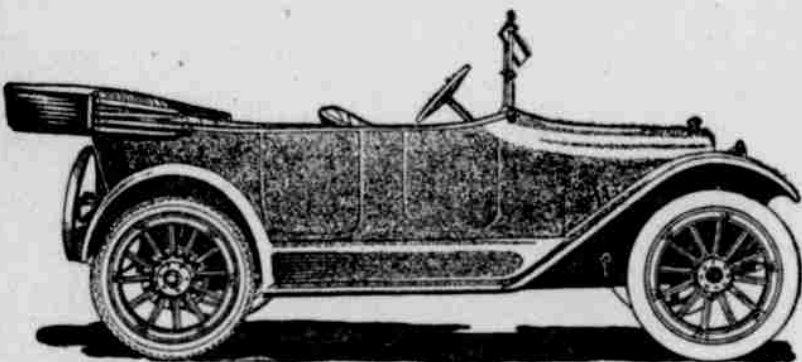

Truth is the eternal test. You will never read a Chevrolet statement making any extravagant claim.

True, we have claimed certain qualities for our car—superior motor-power, easy riding comfort, low cost of upkeep—but we have always been prepared to support our statement with the proof.

We claim that the Chevrolet model—now as always—stands for the highest motor value in its price class.

Test our statement—see the Chevrolet car, ride in it.

You will find—as thousands of others have—that we have spoken the truth.
